SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

FLOATANT GEL

Date of issue: 11.11.2026 | Version: 1.0

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier	FLOATANT GEL Packaging: 10 ml EAN: 8595687341833
1.2 Relevant identified uses of the substance or mixture and uses advised against	Gel floatant for flies. Uses advised against: any other than the identified use.
1.3 Details of the supplier of the safety data sheet	SYBAI tackle s.r.o. Věry Pánkové 829/2, 779 00 Olomouc, Czech Republic Company ID: 27814033 Tel.: +420 799 069 990 E-mail: info@sybai.com Web: www.sybai.com
1.4 Emergency telephone number	Toxicological Information Centre (TIS), Na Bojišti 1, 128 08 Prague 2, Czech Republic 24 hours: +420 224 919 293 or +420 224 915 402 **Austria:** Vergiftungsinformationszentrale (VIZ), +43 1 406 43 43 (24/7) **Belgium:** Centre Antipoisons / Antigifcentrum, +32 70 245 245 (24/7) **Bulgaria:** National Toxicology Centre, UMHATEM “N. I. Pirogov”, +359 2 9154 233 (24/7) **Croatia:** Centar za kontrolu otrovanja (CKO), +385 1 2348 342 (24/7) **Denmark:** Giftlinjen, +45 82 12 12 12 (24/7) **Finland:** Myrkytystietokeskus, +358 9 471 977 (24/7) **France:** ORFILA (poison centres), +33 1 45 42 59 59 (24/7) **Germany:** Giftnotruf der Charité – Universitätsmedizin Berlin, +49 30 19240 (24/7) **Hungary:** ETTSZ, 06 80 201 199 (24/7, free of charge, only from within Hungary) **Ireland:** National Poisons Information Centre, +353 1 809 2166 (daily 8:00–22:00, for the public) **Italy:** Centro Antiveleni di Milano – Ospedale Niguarda, +39 02 6610 1029 (24/7) **Lithuania:** Apsinuodijimų informacijos biuras, +370 5 236 2052 (24/7) **Luxembourg:** Centre Antipoisons, +352 8002 5500 (24/7) **Malta:** Malta National Poisons Centre, +356 2559 4600 (daily 8:00–20:00) **Netherlands:** Nationaal Vergiftigingen Informatie Centrum (NVIC), +31 88 755 8000 (24/7, for healthcare professionals only) **Norway:** Giftinformasjonen, +47 22 59 13 00 (24/7) **Poland:** emergency number 112 **Portugal:** Centro de Informação Antivenenos (CIAV), 800 250 250 (24/7, only from within Portugal) **Romania:** Biroul pentru RSI și Informare Toxicologică, +40 21 318 36 06 (Monday–Friday 8:00–15:00) **Slovakia:** Národné toxikologické informačné centrum (NTIC), +421 2 5477 4166 (24/7) **Slovenia:** emergency number 112 **Spain:** Servicio de Información Toxicológica (INTCF), +34 91 562 04 20 (24/7) **Sweden:** Giftinformationscentralen, emergencies 112 (ask for Giftinformation), less urgent cases +46 10 456 6700 (24/7) **All EU/EEA countries:** emergency number 112

SECTION 2: Hazards identification

2.1 Classification of the mixture	The mixture does not meet the criteria for classification as hazardous according to Regulation (EC) No 1272/2008 (CLP).
2.2 Label elements	Not required.
2.3 Other hazards	The mixture does not contain PBT or vPvB substances at a concentration of 0.1 % by weight or higher. It does not contain substances with endocrine disrupting properties. Smeared gel makes surfaces slippery.

SECTION 3: Composition/information on ingredients

3.2 Mixtures	The mixture does not contain any substances that must be listed according to Annex II of Regulation (EC) No 1907/2006 (REACH).

SECTION 4: First aid measures

4.1 Description of first aid measures	After inhalation: not expected. After skin contact: wash with water and soap. After eye contact: rinse with a stream of water for at least 10 minutes. If irritation persists, seek medical advice. After swallowing: rinse mouth with water. Do not induce vomiting. If symptoms occur, seek medical advice.
4.2 Most important symptoms and effects, both acute and delayed	None known. Eye contact may cause temporary irritation.
4.3 Indication of any immediate medical attention and special treatment needed	Not required. Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media	Suitable extinguishing media: foam, carbon dioxide, dry powder, water spray. Use extinguishing media suitable for the surrounding fire.
5.2 Special hazards arising from the substance or mixture	Combustion may produce carbon monoxide, carbon dioxide, silicon dioxide and traces of formaldehyde.
5.3 Advice for firefighters	Do not inhale combustion products. Use self-contained breathing apparatus if necessary.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures	Smeared gel makes surfaces slippery; there is a risk of slipping.
6.2 Environmental precautions	Prevent large quantities from entering drains, soil and water.
6.3 Methods and material for containment and cleaning up	Wipe up the gel with absorbent material (paper, cloth, sawdust) and place it in waste. Wash the surface with water and detergent.
6.4 Reference to other sections	See sections 8 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling	Avoid contact with eyes. Do not eat, drink or smoke when working. Close the bottle tightly after use.
7.2 Conditions for safe storage, including any incompatibilities	Store in the tightly closed original container, out of the reach of children and away from heat sources.
7.3 Specific end use(s)	See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters	The mixture does not contain substances with occupational exposure limit values established at EU level.
8.2 Exposure controls	Personal protective equipment is not required under normal use.

SECTION 9: Physical and chemical properties

Physical state	Gel.
Colour	Translucent, slightly ochre-coloured.
Odour	Odourless.
Flash point	Above 150 °C (open cup).
Auto-ignition temperature	Above 400 °C.
Viscosity	Not determined (gel).
Density	Approximately 1 g/cm³.
Solubility in water	Practically insoluble.
Other properties	Not determined, not relevant for safe use.

SECTION 10: Stability and reactivity

10.1–10.3 Reactivity, chemical stability, possibility of hazardous reactions	The mixture is stable under normal conditions. No hazardous reactions are known. Traces of formaldehyde may be released when heated above 150 °C in air.
10.4 Conditions to avoid	Strong heating.
10.5 Incompatible materials	Strong oxidising agents.
10.6 Hazardous decomposition products	None under normal conditions. At high temperatures: carbon monoxide, carbon dioxide, silicon dioxide and formaldehyde.

SECTION 11: Toxicological information

11.1 Information on hazard classes	Based on available data, the classification criteria are not met for any hazard class, including aspiration hazard.

SECTION 12: Ecological information

12.1–12.7	Based on available data, the criteria for classification as hazardous to the environment are not met. The mixture is insoluble in water and biodegrades very slowly. It does not contain PBT or vPvB substances.

SECTION 13: Disposal considerations

13.1 Waste treatment methods	Do not pour gel residues into drains. Small quantities absorbed in paper can be disposed of as mixed municipal waste. Dispose of the emptied packaging via separate waste collection.

SECTION 14: Transport information

14.1–14.7	Not dangerous goods according to ADR/RID, IMDG or IATA regulations.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture	Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP), Act No. 350/2011 Coll., on chemical substances and chemical mixtures.
15.2 Chemical safety assessment	Not carried out.

SECTION 16: Other information

Data sources	This safety data sheet was compiled on the basis of raw material data provided by their suppliers.
Disclaimer	The information corresponds to the current state of knowledge and describes the product with regard to safety. It does not constitute a guarantee of product properties.
